Explosion Proof/Dust Ignition Proof Electrically Operated IMMERSION SEPARATOR VACUUM CLEANER

PrestiVar explosion proof/dust ignition proof vacuums are specifically designed to safely vacuum explosive, combustible, and conductive dusts. Our immersion separator system neutralizes explosive, conductive, combustible dust by submerging it into a neutralizing liquid bath, rendering it inert and eliminating any risk of fire or explosion. Our explosion proof vacuums comply with NFPA 484 guidelines and are an effective tool for good housekeeping practise as per OSHA. All the electrical components, including the motor and starter are totally enclosed so there is no source of ignition. Our explosion proof/dust ignition proof vacuums are completely grounded and static dissipating because they are built entirely with non-sparking metals.
