

UK4AA XENON LIGHT

Model Number: UK4AA-AS2

Instructions & Important Information

Thank you for purchasing this UK all environment work and outdoor light! It is tough enough for use in rain, snow, smoke, dust or hazardous

locations (see listing). The high intensity xenon lamp outperforms lights many times its size

Battery Installation

To install batteries, hold the case in the position shown. Drop the batteries one by one into the case in the order shown. Make sure that the (+) end of the battery is down for 1 and 2 and up for batteries 3 and 4. Next insert the lamp module into the case. Place the bezel over the lamp module and screw it onto the case.

ON/OFF

To operate the UK4AA push in on the black rubber switch to turn the light on and off. For momentary lighting press the switch half-way in. Make sure the bezel is screwed all of the way down or the UK4AA will not light. By partially unscrewing the bezel you can protect the light from turning on by accident.

O-Ring Seal

Lightly lubricate the O-ring with silicone grease. Do not use tools to remove the O-ring.

Pressure Equalizing Vent

Air and gas from battery leakage can pass freely in and out of the UK4AA through a vent in the rear of the light. Do not allow dirt or grease to accumulate on the vent or it will not operate properly.

Care and Maintenance

- Keep area around the O-ring clean.
- For longer lamp life, turn the light on for several minutes after loading fresh batteries to "age" the batteries.
- If the light floods, empty it immediately, rinse with fresh water and dry completely before reassembly.
- Replace the reflector/lamp, which contains a hydrogen absorbing catalyst, if it gets wet.
- Do not store batteries in the light for long periods of time; they may leak and damage the light.

Limited Lifetime Warranty
Underwater Kinetics products are engineered for maximum performance and durability. All products carry a Limited Lifetime Warranty to the original retail purchaser to be free from defective material and workmanship under normal and intended use. In addition, the Underwater Kinetics Limited Warranty covers materials used in its products to the original purchaser, from the date of purchase, as follows: plastics for 10 years; rubber for 3 years, LED and electronics for 1 year, rechargeable batteries for 90 days and lamps for 30 days. In the event the original retail purchaser detects a defect in the material or workmanship, the product along with proof of purchase date should be returned to an authorized Underwater Kinetics dealer or directly to Underwater Kinetics with the postage prepaid. Underwater Kinetics agrees to repair or replace at Underwater Kinetics' sole discretion any product found to be defective in material or workmanship within the time period specified above. For the complete Limited Lifetime Warranty write to Underwater Kinetics or go to the web site www.underwaterkinetics.com.

Certifications

This equipment is suitable for use in Class I, Division 2 Groups A, B, C, D; Class II, Division 2, Group G; Class III Division 2, or Non-Hazardous Locations Only. Use only with 14801 Lamp and 4 Duracell MN1500/PC1500, Energizer E91/EN91 or Rayovac AL-AA/815 1.5 V size AA Alkaline batteries.

CL I, DIV 2, GP A, B, C, D,
CL II, DIV 2 GP G,
CL III, DIV 2 T2A

Note: The UK4AA will not light if the batteries are not inserted with the polarity as shown.

WARNING Explosion Hazard

Substitution of Components May Impair Suitability For Class I, Division 2.

WARNING Explosion Hazard

Do Not disconnect Equipment Unless Power Has Been Switched Off Or The Area Is Known To Be Non-Hazardous

CAUTION

Batteries can vent hydrogen gas and possibly cause an explosion if they are (1) installed without the proper polarity, (2) not the same type, brand name and age or (3) completely discharged.

- > Load batteries according to the diagram.
- > Discard all batteries as soon as they are drained or no longer produce light.
- > Do not mix batteries of different type, brand or age.
